

You're looking for a career where your efforts and successes are fully recognized.

Friesen Hauling & Excavating is a third-generation family owned and operated excavating and construction contractor based in southeastern Manitoba. Driven by a rich heritage of workmanship, our team continually strives for excellence, with a well-earned reputation for honesty and quality. Evolving to meet today's demands, we provide our clients with complete site development, including excavation, site services, earth work, demolition, aggregates, and trucking.

We're looking for a driven and capable **Heavy Truck Mechanic** to join our team. This position will work alongside another qualified team member to maintain, repair, and overhaul all heavy machinery, equipment, trucks, trailers and vehicles for Friesen Hauling and Excavating.

The successful candidate will be a highly motivated individual who thrives in a team environment. Sound like you? Keep reading.

You deserve:

A team environment that values your skill and recognizes your efforts.

A work environment with room to grow.

And obviously, a competitive wage.

You are:

Independent. Resourceful. Driven.

Experienced in Heavy Equipment Maintenance.

A good project manager. You can work on multiple projects simultaneously, know how to prioritize tasks, and have good verbal and written communication.

Relational. You have a positive mindset and a willingness to tackle challenges and take on extra responsibilities.

Professional. You're focused on completing tasks, the needs of the organization and the success of the team.

You will:

- Service, maintain, and repair semi-trucks, trailers, heavy equipment, vehicles and support tools and equipment.

- Receive and follow instructions from the operations foreman.
- Test and diagnose equipment malfunctions to determine extent of repair requirements.
- Repair equipment for proper performance and to ensure that repairs meet manufacturers' specifications.
- Clean, lubricate and perform other routine maintenance work on equipment.
- Move and operate various types of heavy construction equipment in the shop / yard as well as on site as needed.
- Participate with site crews and demonstrate a willingness and readiness to perform other tasks when needed. (Be willing to “lay pipe”).
- Contribute to Friesen Hauling & Excavating’s positive image and reputation by continually practicing good housekeeping to maintain a tidy and organized shop and workplace, keeping tools and toolboxes organized and clean.
- Operate power tools and welders.
- Travel to worksites to perform maintenance and repair work on equipment.
- Participate in the Friesen Hauling & Excavating safety program.
- Communicate any unsafe conditions or accidents/injuries in a timely manner to the supervisor to facilitate prompt correction and/or reporting.
- Complete and file maintenance records, daily logs, vehicle inspection, hours of service, etc.

You have:

Either Red Seal in Truck & Transport OR 6 years’ experience as mechanic in Truck & Transport

A valid driver’s license. Class 1 drivers will be considered an asset.

Extensive knowledge of diesel engines and construction equipment.

Your wage:

Will be in the range of \$26 - \$34 per hour.
